

I believe there are very good intentions involved with wanting to clean up the airwaves. It's an admirable task. This proposal however, is definately a step in the wrong direction. Our two stations have never, or will they ever recieve a complaint for indecent programming. We are struggling to survive with our Christian and Adult Standards formats. There are four of us between the two stations. Trying to comply with a proposal like this would be very costly. In our case cost prohibitive, as well as time comsuming. Don't punish us for the abuses of a very small minority of broadcasters. Please let common sense prevail, instead of what might be considered an unnecessary knee-jerk reaction.
